14. Updates from Academic Departments

The Governance Committee recommended that the “updates from academic departments” item on the Senate Council agenda be moved to consent agenda and that department announcements be reported in advance to be included in the meeting package. Governance Committee presented the rationale that this method could provide a better way to share information, but information for discussion could still be brought forth in the regular agenda.

Senate Council held a discussion as to how to proceed. Support was given to a hybrid approach where technical updates would be provided in advance and included in the consent agenda, while maintaining the “updates from academic departments” regular agenda item to report updates and last minute items. Members stated that this method could provide advance notice as well as last minute reminders of upcoming events and information. It was agreed that this topic would return to Governance Committee for further discussion.
15. New Business

A Senate Council member inquired about the status of the Accessibility Assessment that was conducted. M. Gourlay noted that a full report has not yet been completed and received from the company who conducted the assessment. Once a completed report is received, Senate Council will receive an update and presentation.

A Senate Council member inquired about emergency procedures. M. Gourlay stated that the recent risk management report identified that policies and procedures have not been updated since 2016 and that updates are required. As such, the office of the Executive Director, Finance and Administration is currently reviewing and researching procedures and policies of other universities and developing current plans for St. Jerome’s.
